

# Installation instructions

PAKOKULA

### Installation Steps:

1. Tighten the pipes threaded onto the steel wire rope on the square plate onto the two teeth of the lamp body.
2. Adjust the wire rope to a suitable length.
3. Tighten the safety screws on the wire rope.
4. Thread the main line through the locking hole of the square plate.
5. Tighten the adhesive screw on the side of the locking wire hole (pay attention to protecting the wire from damage).
- 6-7. Use the screws on the accessory package to secure the hanging plate to the junction box.
8. Use a wiring cap to connect the main wire on the canopy to the reserved wire on the ceiling and tighten it (the wire with a green stripe is ground wire E, the wire with a white stripe is zero wire N, and the wire without a transparent color is live wire L)
9. Place the entire lamp on the hanging plate (so that the screws on the hanging plate expose the square plate).
10. Tighten the flower branch nut onto the exposed hanging plate screw.
- 11 Place the lampshade into the lamp holder.
12. Tighten the lamp holder ring (fixing the lampshade).
13. Screw the bulb into the socket.

### Notice:

- 1 .Before installation please check whether the parts are complete and whether the lamps are in good condition.
- 2 . Cut off the power supply before installation , and then perform wiring.
- 3 . Install the lamp body first , and then install the power supply .
- 4 . Installation and maintenance must be carried out by professional and technical personnel.
